Java calculator 2. 2

```
public static int sum(int number)
{
    if(number > 0)
    {
        return number + sum(number-1);
    }
    return number;
}

public static void main(String[] args) {
    System.out.println("Sum= " + sum(5));
}
```
